Areas of Focus

BEYOND SOF
BY, WITH AND THROUGHOUT

Special Operations: Our history is derived from SOF Imperatives. Our network touches over 500,000 current and former SOF/DoD and IC and leverages critical relationships to deliver rapid customized solutions to our customers. Our past performance in this has yet to be rivaled even by seasoned HR teams.

Staffing Solutions for Special Operations, Government contracting, and Medical personnel and Equipment, utilizing our vast global network which includes partnerships with Public and Private entities . Cost effective model that empowers our clients with tailored sourcing solutions that out performs the “stove piped” approach.

Rapid Acquisition: Experience in successful Program and Portfolio Management of over \$1 Billion, we offer full spectrum delivery solutions to the client with end user reachback that enables confident accountability to funding sources.

Capabilities Profile Brief

BEYOND SOF
BY, WITH AND THROUGHOUT

Efficiency Methodology/Process Improvement: In today's economy, more with less is not an option-it is mandatory. We offer small budget, high potency solutions that reduce risk and overhead to Defense Contracting Firms, Commercial Organizations, and Government clients.

Business Development: Using a "Forward Deployed" Model, Beyond SOF can rapidly identify and delegate client requirements overnight to customers who can match requirement OPTEMPO. Recently facilitated a \$2M multi-platform SOCOM UAV portfolio management and integration initiative.

Marketing and international representation: We provide representation and marketing to Public and Private organizations for global trade and development . We enable access to various geographic locations providing a "friendly face in an unfamiliar place."

Areas of Focus

Network Expansion: This is a low-risk, high yield ROI for customers looking to do more with less. We offer a full spectrum of options to our customers with regards to access to new and emerging talent, funding streams, and opportunity.

Sensitive Technical Solutions: As JSOC/SOF Portfolio Manager at DARPA, Beyond SOF manages the introductions of leading edge technology that lowers risk and surpasses the client end state.

Technology Discovery / Market Surveys : Our multi-dimensional model enables access to emerging technologies as well as finding the “it” solution to any market.

Humanitarian Endeavors: BSOF is a founding member of HOPE, providing humanitarian based training and advisory services in the areas of security, counter-poaching, Host Nation economical development, and Corporate Social Responsibility through cultural exchanges.
